

OHIO UNIVERSITY

RUSS COLLEGE
of Engineering
and
Technology

The Mechanical Engineering graduate program at Ohio University emphasizes advanced concepts for research, design, and development in mechanical engineering and related fields. Graduates have gone on to perform research, including a doctoral program of study, or work on design teams in industry.

The Department of Mechanical Engineering grants a Master of Science degree in mechanical engineering. A PhD degree in Mechanical & Systems Engineering is also available. (Unlike most other U.S. universities, more than half of our first year students are awarded funding in the form of a stipend/tuition scholarship.)

Program and degree requirements can be assessed at:

<http://www.ohio.edu/mechanical/graduate/index.cfm>

Admission information is located at:

<http://www.ohio.edu/graduate/deptfactsheets/mechanicalengineering.cfm>

You can apply online at:

<http://www.ohio.edu/graduate/apply.cfm>

For information on the research interests of individual faculty members, please visit the following website:

<http://www.ohio.edu/mechanical/people/index.cfm>

Please feel free to contact the Graduate Chair, Dr. Hajrudin Pasic (psic@ohio.edu) about our program at Ohio University. (Please note that as we transition from quarters to semesters, our website and printed information is still in the process of being updated.)
