# “Mechanisms of heat transfer and heat storage. Theoretical principles and application.”:

- theoretical background about heat transfer
- how to solve heat transfer in real application
- examples of combined heat transfer convection/conduction

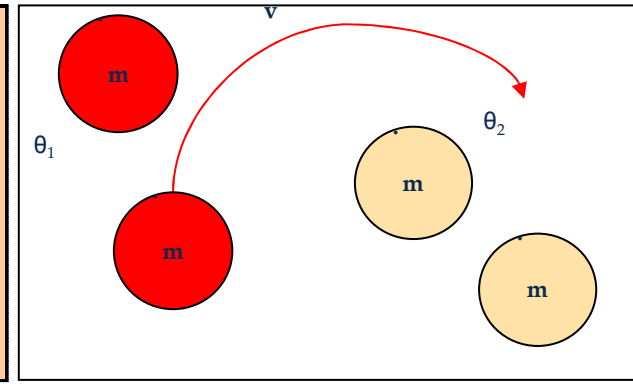

## Conduction

## Radiation

## Convection

**Lecture of Dipl.-Ing. Heiko Fechner**

Research Assistant at the Institute of Building Climatology, TU Dresden.

**Date: 17.05.2018, time: 08.50 - 10.20, Place: G-G314**
