

27th - 29th May 2025
Hotel Malý Pivovar, Klášter
Hradiště nad Jizerou, Czech Republic

Czech Society for Mechanics
Expert Group of Experimental Mechanics

and

Technical University of Liberec
Faculty of Mechanical Engineering

under the patronage of the Dean doc. Ing. Jaromír Moravec, Ph.D.

organise

The 63rd International Conference **Experimental Stress Analysis**

Important Dates

20th January	Start of the registration
5th May	Deadline for the extended abstract submission
30th June	Deadline for the full paper submission
20th April	Deadline for payment

Conference Objective

The objective of the conference is to provide the current situation, exchange experience, establish and strengthen relationship between universities, companies and researchers from the field of experimental stress analysis and numerical modelling in mechanical engineering.

The conference will host a competition for young scientists (up to 35 years) on the best presented paper and poster. The winners will be financially awarded by the Czech Society for Mechanics and by Technical University of Liberec.

Scientific Program

Development of experimental methods in mechanics
Development of experimental methods in biomechanics
New methods and applications of deformation and stress analysis in mechanical structures
New methods and applications of deformation and stress analysis in civil and other structures
Experiment as a tool for the verification of analytical and numerical methods
Experimental research and prediction of strength, life and operational reliability of structures and devices
Monitoring of operational loadings and operational states of structures and devices
Mechanics of advanced material, composites and 3D printed materials
Methods and means of teaching experimental methods

Participants registration and conference publications

Each participant must register online on conference website
ean2025.kmp.tul.cz (from 20th January)

The accepted full papers will be reviewed and published in electronic proceedings. There is detailed information for authors on the conference website. The organizers will endeavor to include the proceedings in the SCOPUS database.

Conference Organizing Committee

Prof. Ing. Iva Petříková, Ph.D.

Ing. Michal Sivčák, Ph.D.

Ing. Jarmila Čálková

Bc. Lubomír Sivčák

Registration Fee

8500,-Kč (350,-EUR) for all participants.

The registration fee covers entrance to the conference EAN 2025, publishing one paper in the conference proceedings and extended abstract in printed proceedings, refreshments, food, gala dinner and accompanying events.

Accommodation

The accommodation for conference participants is arranged from 26th May to 29th May in the Hotel Malý Pivovar Klášter.
